

# National Consultant to Provide Training on Forest Seed Handling and Nursery Techniques in Pu Hu Nature Reserve Area

**Position:** National consultant to provide training on forest seed handling and nursery techniques in Pu Hu nature reserve area, Thanh Hoa province.

**Reporting:** VFD Thanh Hoa provincial coordinator, SNV

## I. Background

The USAID Vietnam Forest and Deltas Program (VFD), from 2013 to 2018, is being implemented through Winrock International, the Netherlands Development Organisation SNV, American Red Cross, Vietnam Red Cross and Centre for Sustainable Rural Development (SRD). The USAID Vietnam Forest and Deltas Program is embarking upon a six-year effort that supports four provinces (Nghe An, Thanh Hoa, Nam Dinh and Long An) to accelerate their transition to climate resilient, low emissions development through investments in reducing net emissions from forests, and enhancing resilience of people, places, and livelihoods to short and long-term climate impacts. In VFD, SNV provides technical leadership for the sustainable landscape component that is focusing on upland landscapes, with the goal of reducing greenhouse gas emissions from deforestation and forests degradation, maintaining and enhancing existing forests stocks and increasing climate change resilience and sustainability of landscapes. VFD has supported Thanh Hoa in development Provincial REDD Action Plan (PRAP) and this PRAP has been approved by Thanh Hoa provincial people's committee in May 2016.

As requested by Thanh Hoa province, VFD is supporting the province in effective implementation of the approved PRAP. As part of the support in building provincial capacity for tree seedling production for future forest plantation, enrichment and restoration for PRAP implementation, VFD is seeking a national consultant to provide training on forest seed handling and nursery techniques in Pu Hu nature reserve area, Thanh Hoa province.

## II. Consultancy service description:
