

## **Wildlife Crime Case Officer**

### **About ENV**

Education for Nature – Vietnam (ENV) was established in 2000 as Vietnam’s first non-governmental organization focused on the conservation of nature and the protection of the environment. ENV combats the illegal wildlife trade and aims to foster greater understanding amongst the Vietnamese public about the need to protect nature and wildlife. ENV employs creative and innovative strategies to influence public attitudes and reduce demand for wildlife trade products. ENV works closely with government partners to strengthen policy and legislation, and directly supports enforcement efforts in the protection of endangered species of regional, national, and global significance.

ENV’s Wildlife Crime Unit (WCU) was established in 2005 to facilitate and motivate public involvement in efforts to combat wildlife trade, and to improve the effectiveness of front line law enforcement agencies. The WCU administers a public toll-free national hotline 1800-1522 for reporting wildlife crimes. Information reported through the hotline is passed on to the appropriate authorities. ENV then works closely with law enforcement agencies, tracking each case through to conclusion, and documenting the results on ENV’s Wildlife Crime Database. The WCU strives to achieve a successful outcome for each case, helping coordinate placement of animals, providing advice to the authorities, and encouraging bold action that would serve to deter future crime.
