

## Data Collectors for Baseline Survey

### SCOPE OF WORK

#### Data collectors for baseline survey in Hoa Binh and Lai Chau provinces

*“Improved Household food security and nutrition through Enhanced Homestead Food Production in Son La, Lai Chau and Hoa Binh Provinces, Vietnam”*

#### Introduction:

HKI-Vietnam is a US non-governmental organization established in Vietnam in 2004. Its mission is to save the sight and lives of the most vulnerable and disadvantaged by combating the causes and consequences of blindness and malnutrition. We do this by establishing programs grounded in evidence-based research in eye health and nutrition.

To address the nutrition and food security challenges in targeted project area, after gaining big achievements in Son La province, HKI-Vietnam scale up the project: *“Improved Household Food Security and Nutrition through Enhanced Homestead Food Production”* to Hoa Binh and Lai Chau provinces for 4 years from 2017 to 2021. The EHFP model’s ultimate goal is to improve the nutrition status of mothers and children under two years of age in these provinces. HKI supports targeted households to improve child and mother nutrition status by using homestead food production. To have baseline data for designing suitable activity with local contexts and for evaluating its effectiveness after the project interventions implemented, HKI will conduct baseline survey in both the intervention and control communes including 2 communes in Lai Chau and two other communes in Hoa Binh provinces in December 2017. To serve this task, HKI is looking for 10 skilled data collectors to collect the field data.

#### 1. Services.

The consultant will be employed to collect baseline survey data at 600 targeted households and 300 control households in 4 communes in Lai Chau and Hoa Binh. They will use tablets with the questionnaire developed and installed by HKI during their performances
